Important Notice Regarding the Use of Portable Battery Chargers

Thank you for choosing our hotel.

In recent years, there have been reports of accidents involving portable battery chargers, including overheating, smoke, and fire.

To ensure that all guests can enjoy a safe and comfortable stay, please observe the following precautions when using a portable battery charger in your room.

- Please refrain from charging portable battery chargers when you are away from your room or while you are sleeping.
- Do not charge portable battery chargers on flammable materials such as beds, sheets, curtains, or towels.
- While charging, please use the portable battery charger in a location where you can monitor it for any abnormalities.
- Do not use a portable battery charger that is damaged, swollen, or unusually hot.

We sincerely appreciate your understanding and cooperation in helping us ensure the safety of all our guests.
